

## MP1 Submission Instruction:

Step 1. Replace run.sh and submit.py in your local directory with the latest run.sh and submit.py (in the current zip archive)

Step 2. Install wget

Check if you have wget locally by using “wget -version”

Step 3. Upload your code to svn

- svn checkout [https://subversion.ews.illinois.edu/svn/fa14-cs425/YOUR\\_NETID](https://subversion.ews.illinois.edu/svn/fa14-cs425/YOUR_NETID)
- cd YOUR\_NETID
- cd MP1
- copy all contents of your mp1 to the current directory
- svn add \*
- svn commit -m “Your comments here”

Step 4. Run submit.py by

- python submit.py
  - **Login (Email address):** #type in your email address
  - **One-time Password (from the assignment page. This is NOT your own account's password):**  
#please find your one-time password under page  
[“https://illinois.coursera.org/cs425-001/assignment”](https://illinois.coursera.org/cs425-001/assignment) : Submission Password
  - Enter the part you want to submit (note that you need to submit the 3 parts separately)

You can submit your work multiple times, but we will only be grading the latest version.
